## **Vehicle Management System**

## **Overview:**

The Vehicle Management System is used for the recording of Vehicle information within the OPTO system. Before using the Vehicle Management System, the user needs to create options for the Vehicle Make and Vehicle Model pop-up lists.

## **To Set-Up Vehicle Make**

From the OPTO ribbon, select the 'Inventory' tab and **click** on the 'Vehicle Make' icon to open the 'Vehicle Make' window. **Click** in the **Code** field and enter a code for the vehicle make, then **press <TAB>** to advance to the **Vehicle Description** and enter a description. **Press <F9>** to save.
